

New Construction

Architect Selection

The Board shall work to construct appropriate modern facilities and/or timely renovations to provide the best educational environments possible for all students within fiscal constraints. To assist the Board, an architect may be commissioned for major building or renovation projects for the purpose of planning, development of education specifications, conceptual design and cost estimates.

In selecting an architect, the following criteria will be considered:

1. Training and experience, including that of partners and associates
2. Planning ability and promptness
3. Specification writing, accuracy and sufficiency of detail
4. Design, appearance and utility
5. Relation with contractors
6. Experience with government agencies

The Superintendent shall develop and publish requests for proposals for hiring an architect for the purposes stated. The Superintendent shall review the credentials of prospective applicants and recommend an architect to the Board for hire.
