

StudentsAwards for Achievement

The board of education encourages the professional staff to maintain a set of criteria and procedures for presenting letters or other suitable awards to students for scholarship and distinguished service in any school activity. In all cases, the relationship between the award and the relevant goal or goals of the schools should be pointed out.

The professional staff is authorized to review and approve, or reject, proposed trophies, prizes, scholarships, or other awards from non-school donors. Acceptance shall require affirmative answers to the following questions:

1. Can the proposed award be considered free from motives of personal or corporate gain and publicity?
2. Are the criteria for making the award under the control of the professional staff, or acceptable to the staff?
3. Are the purposes, either implied or explicit, of the proposed award consistent with our schools' goals?

All honors and awards presented to the students by the schools shall serve as an incentive to enrich their school program and to stimulate their level of thinking and living. All honors, awards, and scholarships presented by the schools shall be awarded strictly on the merits of the student receiving them.
