Instruction

Bring Your Own Electronic Communication Device (BYOECD) and Protocol for the Use of Technology in the Schools

The following guidelines shall govern the manner in which the Bring Your Own Electronic Communication Device/Technology (BYOECD) policy is to operate within the District.

Definitions

An Electronic Communication Device (ECD) as part of this protocol is a piece of privately owned and/or portable electronic handheld technology that includes emerging mobile communication systems and smart technologies, tablets, laptops and netbooks, and any technology that can be used for wireless internet access, word processing, image capture/recording, sound recording and information transmitting, receiving, and storing.

Teachers' Role

- 1. Teachers are facilitators of instruction in their classrooms. Therefore, they will not provide technical support. This responsibility resides at home with parents/guardians.
- 2. Teachers may communicate information regarding educational applications and suggest appropriate tools to be downloaded to personal devices. Parents will need to assist their younger children with downloads if they wish to follow teachers' suggestions. No applications are to be downloaded at school.
- 3. Teachers are to closely supervise students to ensure appropriate use of technology in the classrooms.
- 4. It is understood that not every student has his/her own electronic device. To ensure equal accessibility to technology resources, teachers will provide students with technology within the school as available.
- 5. The use of these student personal devices, as with any personally owned device, is strictly up to the teacher.

Security and Damages

- 1. The District, or any of its schools, is not liable for any device that is stolen or damaged. Responsibility to keep the device secure rests with the individual owner. If a device is stolen or damaged, it will be handled through the administrative office as other personal items are stolen or damaged. It is recommended that skins, decals, and other custom touches be used to identify physically a student's device from others. Additionally, protective cases for technology are encouraged.
- 2. Personal devices cannot be left in school before or after school hours. While the district will provide instructional support for any personal devices, the district will not be responsible for the repair or replacement of said equipment.

3.

Operating Principles for Use of Personal Devices on School Campus

- 1. Devices cannot be used during assessments, unless otherwise directed by a teacher.
- 2. Students must immediately comply with teachers' requests to shut down devices or close the screen. Devices must be in silent mode and put away when asked by teachers.
- 3. Students are not permitted to transmit or post photographic images/videos of any person in school on public and/or social networking sites.
- 4. Personal devices must be charged prior to bringing them to school and run off their own batteries while at school.
- 5. To ensure appropriate network filters, students will only use the District's wireless connection in school and will not attempt to bypass the network restrictions by using 3G or 4G network.
- 6. Students must be instructed that bringing devices to school or infecting the network with a virus, Trojan, or program designed to damage, alter, destroy or provide access to unauthorized data or information is in violation of the District's Acceptable Use Policy and will result in disciplinary actions.
- 7. The District has the right to collect and examine any device that is suspected of causing problems or is the source of an attack or virus infection.
- 8. Students must be instructed that possessing or accessing information on school property related to "hacking", altering, or bypassing network security policies is in violation of the Acceptable Use Policy and will result in disciplinary actions.
- 9. Students can only access files on the computer or Internet sites which are relevant to the classroom curriculum and suggested by a teacher.
- 10. Students are not to physically share their personal devices with other students, unless approved in writing by their parent/guardian.

Bring Your Own Device (BYOD) and Protocol for the Use of Technology in the Schools

Operating Principles for Use of Personal Devices on School Campus (continued)

- 11. Personal devices may not be used to cheat on assignments, tests or for non-instructional purposes, such as making personal phone call and text/instant messaging.
- 12. Personal devices may not be used to send inappropriate e-messages during the school day.

Standards of Responsible Use

All students in District schools must adhere to the following standards of responsible use:

- The District may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.
- Students are responsible at all times for their use of the District's electronic communication system and must assume personal responsibility to behave ethically and responsibly, even when technology provides them the freedom to do otherwise.
- Students must log in and use the District filtered wireless network during the school day on personal electronic devices.
- Students must not access, modify, download, or install computer programs, files, or information belonging to others.
- Students must not waste or abuse school resources through unauthorized system use (e.g. playing online games, downloading music, watching video broadcasts, participating in chat rooms, etc.).
- Students must not alter computers, networks, printers or other equipment except as directed by a staff member.
- Technology, including electronic communication, should be used for appropriate educational purposes only and should be consistent with the educational objectives of the District.
- Students must not release personal information on the Internet or electronic communications.
- If a student finds an inappropriate site or image, he or she must immediately minimize the program and contact the instructor.
- Students must not create/publish/submit or display any materials/media that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, or illegal and should report any instances encountered.
- Students shall adhere to all laws and statutes related to issues of copyright or plagiarism.
- Violation of any of these standards may result in suspension of computer use, Internet privileges and/or other disciplinary action.
