

Business and Non-Instructional OperationsConcept and Roles in Business and Non-Instructional OperationsBusiness (3100-3400 Section)

The Board of Education will:

- obtain a level of resource commitment from the community necessary to provide a high quality education consistent with the community's will and capability to provide.
- guide expenditures to achieve the greatest educational returns.
- use an accounting system that promotes continuous improvement in the educational delivery system, encourages community participation, and facilitates assessment of systemwide objectives.
- insure advance planning through effective budget procedures.
- explore all practical sources of income.

Non-Instructional Operations (3500 Section)

The Board of Education will operate and maintain the school plant and equipment:

- to provide adequate resources to maintain the physical condition of the plant and equipment.
- to provide high standards of health and safety for the pupils and the staff.
