

Personnel - Certificated/Non-CertificatedConcepts and Roles in Personnel

The personnel policies of a school system are an essential part of the program of public education in a community. The philosophy of a school system and the community is generally reflected in such policies.

Through its personnel policies, the board of education wishes to establish conditions that will attract and hold the highest qualified personnel for all positions who will devote themselves to the education and welfare of our students.

Policy development must be approached with attitudes of mutual faith and good will. Cooperation and participation of the employees' organizations, administration and the board of education are essentials in the formulation of personnel policies. If the predominant values and standards are based upon a democratic philosophy, the personnel policies and procedures will add to the dignity of each individual.

Provisions for the implementation of adopted personnel policies should include channels of communication and procedures for the handling of professional and ethical problems, through which all persons or groups affected may voice their opinions.

To keep its personnel policies and the corresponding administrative regulations in the highest state of effectiveness to achieve the above purposes, the superintendent of schools is directed to establish the procedures needed.
