## Personnel - Coaches

## Intramural or Interscholastic

## Qualifications

The Brookfield Board of Education recognizes its responsibility for the physical development of all students. The Board further recognizes the delicate balance that must be maintained between its academic programs and its athletic programs if students are to develop their full potential in all areas.

Therefore, to this end it is incumbent upon the District to hire the most qualified coaches possible and for the District to promulgate regulations to ensure that coaches meet prescribed standards.
