

Students

Photographing of Students

Student photographs may be taken on school premises by commercial photographers only when there is a school purpose for them such as yearbook, class pictures, student records, or identification cards. Fund-raising activities by school-related organizations will not be considered a school purpose.

When permission to take such photographs has been granted, they may be taken either during or outside school hours, and teachers or other school personnel may assist in the process.

The commercial photographer who is taking the photographs may advise students by means of a card, brochure, or other appropriate device, that copies may be purchased directly from the photographer.

When photographs are taken solely for sale to students, parents or legal guardians, with no school use for the photographs being served, they shall be sold at cost with no intent to make a profit for any school group, organization or parent.
