

ROBOTICS TRIP - OVERNIGHT COMPETITIONS  
REQUEST FOR BOARD OF EDUCATION APPROVAL  
MARCH 7, 2018

The students on the Robotic Team have worked hard this season to build a robot for the 2018 FIRST Robotics Competition - FIRST® POWER UP. The team will be competing in March at two local events – Wilby High School, Waterbury and Fairfield University. Success at these events could lead to qualification for the New England Championships in Boston. If the team is able to secure an invite to the regional championship, significant funds will need to be raised to cover the registration fee. As of this time, we look forward to the challenge.

New England District Championships (by qualification)  
- Boston University, Boston MA, Wed 4/11 - Sat 4/14
