RE: Increasing Educator Diversity Plan Draft for BOE Approval

Dear Dr. Barile,

Please find attached the draft of the Brookfield Public Schools Increasing Educator Diversity (IED) Plan, per Public Act 23-167, Section 10(a), which provides: “Not later than March 15, 2024, each local and regional board of education shall submit the increasing educator diversity plan described in subsection (a) of section 10-220 of the general statutes, as amended by this act, to the Commissioner of Education for review and approval.” In January, 2024, the CSDE added a requirement that district plans must be approved by the local Board of Education prior to submission. As a result of this change, I petitioned the CSDE for a 1 month extension for submission and was granted the request. Therefore, the Brookfield IED approved plan is due to the CSDE by no later than April 15, 2024.

There are three attachments, including the PDF version of the Brookfield IED Plan in a Microsoft Word document form, a PDF version of the Brookfield IED Template (the form required by the CSDE for submission), and the same plan in Excel. I am looking forward to presenting this to the full Brookfield Board of Education for consideration and approval at the April 10, 2024 meeting prior to submission to the CSDE on or before April 15, 2024.

Sincerely,

Anna Mahon, Ed.D.
Assistant Superintendent
Brookfield Public Schools
