

Instruction

Special Education

The district shall provide a free appropriate public education and necessary related services to all children with disabilities residing within the district, required under the Individuals With Disabilities Education Act (“IDEA”), Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated and provided with appropriate educational accommodations and services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act and not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in state and federal statutes which govern special education. For those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students’ identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student’s parent(s)/guardian(s)/surrogate parent to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent(s)/guardians(s), and representation by counsel, and a review procedure.

The Board of Education in fulfilling its legal duties and responsibilities for providing special education programs for the students of the school district, shall be assisted through membership in the Regional Service Center and/or through cooperative associations with other school districts.

If necessary, students may also be placed in private school education facilities.
