

Brookfield Professional Learning

November 7, 2017

Brookfield High School

8:00 AM - 3:00 PM

Library Media Center and
Classrooms

NEASC Self-Study

Faculty will be divided into seven committees according to their assigned NEASC standards and indicators. Teams will review evidence from all departments, the school, the district, and the community. Gaps where more evidence is needed will be identified. Initial thoughts about adherence to NEASC standards and indicators will be discussed.

Presenter(s): Faculty is assigned to “Standards Groups” which are led by faculty members identified below:

The overall process is guided by the Steering Committee co-chaired by Mike Smith and Kathy Malatesta. Marc Balanda sits on the Steering Committee with them, Jason DiStasio, Amanda Caparosa, and Jason DiStasio.

Essentially, each standard group is working on writing draft reports and looking for any missing evidence that will help them arrive at an accurate assessment of our adherence to the 7 standards.

Core Values and Beliefs **and** 21st Century Learning Expectations:

Curriculum:

Instruction:

Assessment:

School Culture and Leadership:
